Social Media Optimization (SMO) opens a **steam valve** in the world of eMarketing

SMO is an action concept that generates both immediate publicity and higher search engine rankings. Its promise is unique.

It works through social portals, online meeting places, and community websites. Its methods include RSS feeds, blogs, news forums- and using the buzz power of Flickr, YouTube, Digg, MySpace, and the sites that have “turned up the volume” on the Net. These sites are the hubs that pull millions of hits by the hour and that energize the search engines.

The Promise: Supercharge your online marketing efforts with the hottest new technologies

Like standard search engine marketing, SMO drives higher search engine rankings - a primary benefit. Social media listings pump search rankings more rapidly than standard links because they are current and dynamic, and the pages acquire substantial traffic. These factors move Google and the other engines to respond with vigor. But the huge upside is that SMO drives traffic directly.

Like viral marketing, SMO penetrates in “word of mouth” style through networking in social bookmarking (del.icio.us), social hubs, and video and photo sharing websites. Focused blogging distributes content through the use of RSS (Real Simple Syndication) in the blogosphere and in blog search engines such as Technorati.

SMO experts optimize a site so that it is more easily linked to,

more highly visible to custom search engines, and more frequently included in relevant posts on blogs and podcasts. Your site becomes more linkable and more easily tagged for bookmarking, and it offers rewards for inbound links.

And your site also becomes more “portable” using PDFs, video files, audio files, and content that can be repurposed by other sites. You leverage the immense power of shopping portals like Amazon and eBay. And you profit from mass exposure through press releases and articles custom-developed for your property.

In short, SMO supercharges your online marketing by invoking the hottest and most current technologies available. It combines the elements of search engine optimization with the best features of a high-tech press campaign.

Get online social media sites to do high powered marketing for you!

Get the power of
online social networks
on your side

The Netsmartz SMO Service Package

Interview

Interview: we talk to you to get an assessment of your specific marketing objectives and your keywords (the words that your site will be optimized for).

Keywords

We do a "keyword analysis" to find the ideal keywords for your site.

Social Media

We post to social media sites including MySpace, Flickr, Facebook, Slideshare, Squidoo, Scribd, Digg, and 10 additional social media sites.

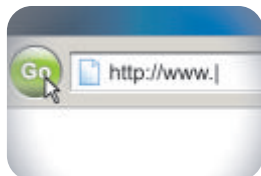

Video Creation

Video creation: with creative input and final review by you, we create and distribute two promotional videos of approximately one minute each in duration. These videos will be optimized and uploaded to Google Video, YouTube, metacafe, and 22 other video sites.

Social Bookmarking

We submit website, blog, press release, and video site URLs to StumbleUpon, del.icio.us, reddit, furl, spurl.net, and 20 other social bookmarking sites.

Deep Link Submissions

25 "deep links" into your site from sites under Netsmartz' control. Deep links go to internal pages in your site - very important.

Give your site online attention with Netsmartz SMO Services

Blog Submissions

Six blog postings, three each to Blogspot and WordPress accounts already established by Netsmartz or to accounts created for your campaign.

eBay and Amazon Promotion

We create product listings for you based on your products or services.

Press Release Distribution

- Collaboration with you in the development of suitable text for basic press releases using a question-answer methodology.
- Distribution of three such releases to 30 free press release sites.

Option: On request, Netsmartz can develop original press releases at a cost of \$500 per release. Such releases would be suitable for such venues as PRNewswire or PRWeb.com.

Reports

Netsmartz will offer a monthly and/or final report on all activity performed. This report will include both a summary of all activity to date and recommendations for future actions.

Customization

You can purchase the standard package above, or Netsmartz will customize a package based on your specific needs.

**Increase your traffic,
and propel your site
to online success!**

About Netsmartz, the company

ABOUT NETSMARTZ

Netsmartz is proud of being a global, quality-driven information technology company and a Microsoft Certified Gold partner. We also have CMMI Level 3 and ISO 9001:2000 certification. As well as software development, we offer products and services in the areas of Search Engine Marketing, E-Learning Courseware, E-Marketing Solutions, and Technical Support.

Netsmartz has its headquarters in Rochester, New York and a roster of Fortune 500 companies as clients including Global Crossing, Kodak, Frontier Communications, Nellie Mae and Wegmans Food Markets. Today we number over 400 employees and have branch offices in Rochester, Boston, Toronto, and Mohali, India.

THE NETSMARTZ EMARKETING TEAM

The Netsmartz Emarketing division is made up of experts that supervise individual teams comprised of 10-20 members each. Each team handles a specific marketing activity like PPC, link building, search engine optimization or content development.

Though they are independent, teams work in close collaboration if the project requires it. The work is complemented by a design and development team that addresses website design, ecommerce functionality, and content management systems.

As a full spectrum Internet services provider, our mission is to facilitate your Internet success in every way possible.
